

A. Studies have proven that Hibistat® immediately kills bacteria on contact. A recent study\* consisted of using agar plates inoculated with Staph aureus. Hands rinsed with Hibistat were pressed onto the inoculated plates. The plates were then incubated and a whitish Staph aureus lawn grew in areas unaffected by antiseptic activity. Hand prints on the plates touched by Hibistat-rinsed hands remained clear and unaffected by the whitish Staph aureus, showing immediate kill and a cumulative effect after just one use.

A.

## The antiseptic that responds as fast as you do.

**Hibistat® is first to the scene with persistent antimicrobial activity.**

Hibistat healthcare personnel hand antiseptic has been proven to provide fast-acting antimicrobial protection on contact with its alcohol + chlorhexidine gluconate (CHG) and emollient formulation. Providing a broad spectrum of activity, Hibistat continues to fight germs much longer than soap and water, or isopropyl alcohol alone. It is ideal for use in the field or the facility, providing a portable defense for use without a sink or water when regular handwashing isn't an option. Plus, its quick-drying formula with added emollients makes it safe for frequent daily use.

**HIBISTAT®**  
Healthcare Personnel Hand Antiseptic

# The antiseptic that responds as fast as you do.

With its formulation of 70% isopropyl alcohol + 0.5% chlorhexidine gluconate (CHG) and emollients, **Hibistat® healthcare personnel hand antiseptic** has been proven to provide fast-acting antimicrobial protection on contact. It provides a broad spectrum of activity, continuing to fight germs much longer than soap and water, or isopropyl alcohol alone. Requiring no water for use, Hibistat is ideal for use in the field or the facility, serving as a portable defense you can carry with you for use when regular handwashing isn't an option. And, because it is safe for frequent daily use, medical professionals of all kinds - from EMS workers out on calls, to nurses and doctors going patient to patient - can benefit from Hibistat's quick-drying formula.

- **Works without water**
